RÉSUMÉ / BOSTON, MA

Max Jackson.

Full-stack engineer

mjackson84@gmail.com · github.com/mxjxn · mxjxn.com

I bring well over a decade of experience in full-stack and front-end development into the modern age of agentic development. My goal is to find a team I can be proud to work with.

01 / SKILLS

Agents & development tools

Hermes · Cursor · GitHub Copilot · MCP · Tool integrations · Scheduled workflows

Development

TypeScript / JavaScript · React · Node.js · Astro · Next.js · Elixir / Phoenix · Clojure / ClojureScript · Python

Data & infrastructure

PostgreSQL · DataScript / Datalog · Docker · Linux · Caddy · Deployment workflows · AWS

Smart contracts

Solidity · Foundry · Ethers.js · On-chain indexing

02 / SELECTED SYSTEMS

Suchbot ↗

2026 — present

Hermes agent publishing daily on Farcaster — chained image tools, its own blog.

Hermes / MCP / Third-party APIs / Webhooks / Farcaster

Agentic knowledge system — Logseq + logseqd + notes app ↗

2026 — present

Custom knowledge base tools for my agent and myself.

Clojure / DataScript / HTTP API / Hermes / PWA

Cryptoart Auctionhouse ↗

2025 — present

Marketplace on cloned Manifold contracts — custom subgraph, bid notifications.

Solidity / Foundry / TypeScript / PostgreSQL / React / On-chain indexing

---

03 / ENGINEERING EXPERIENCE

Experience

Cryptoart.social

2024 – Present

Founder & Lead Developer

- Build and maintain the contracts, indexing services, and website; no other developers have contributed code.
- Own feature decisions and usability, with design collaboration on the current UI/UX.
- Develop gallery tools for curators as part of the platform's expansion.
- Recipient of Clanker Ecosystem Fund's Builder Grant. Sponsored by Kismet Casa to host the auction at FarCon Rome.

Self-employed

2024 – Present

Creative Developer and Artist

- Delivering art weekly to 200+ paid subscribers.
- Experimenting with onchain formats.

Cryptoart DAO

2024 – 2025

Founder & Council Lead

- Founded a cryptoart community organization with a shared treasury.
- Led the council's proposals, voting, and funding decisions.

Charged Particles

2021 – 2023

Lead Developer & Project Manager

- Refactored large React files into focused hooks.
- Moved into project coordination, helping developers, designers, and leadership communicate about the work.

The Boston Globe

2012 – 2015

Web Developer

- Built and maintained boston.com and bostonglobe.com, and helped move Boston.com to a new CMS.

---

04 / WORKING WITH PEOPLE

Teaching & customer work

I currently work full time as a bicycle mechanic while building software and making art outside work. I'm often the person who steps in with frustrated customers. Previously, I taught swimming and drove a pedicab—work that taught me to adapt to different people, build confidence, and handle rejection without taking it personally.

---

05 / EDUCATION

New England Institute of Art

Bachelor of Science — Web Design & Development

Concentration in Interactive Media Design & Game Development
